Forward-Looking Statements

Throughout this press release, we make “forward-looking statements” within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements describe future expectations, plans, results or strategies and can often be identified by the use of terminology such as “may,” “will,” “estimate,” “intend,” “plan,” “continue,” “believe,” “expect,” “anticipate,” “target,” “should,” “could,” “potential,” “opportunity,” “goal,” or similar terminology. These statements are based upon management’s current expectations, assumptions and estimates and are not guarantees of timing, future results or performance. Therefore, you should not rely on any of these forward-looking statements as predictions of future events. Actual results may differ materially from those contemplated in these statements due to a variety of risks and uncertainties and other factors, including, among other things:

- our ability to attract and retain players;
- expectations of growth in total consumer spending on social gaming, including social casino gaming;
- our reliance on third-party platforms and our ability to track data on those platforms;
- our ability to continue to launch and enhance games that attract and retain a significant number of paying players;
- our ability to expand in international markets;
- our reliance on a small percentage of our players for nearly all of our revenue;
- our ability to adapt to, and offer games that keep pace with, changing technology and evolving industry standards;
- competition;
- our dependence on the optional purchases of coins, chips and bingo cards (collectively referred to as “coins, chips and cards”) to supplement the availability of periodically offered free coins, chips and cards;
- our ability to access additional financing and restrictions and covenants in debt agreements, including those that could result in acceleration of the maturity of our indebtedness;
- the discontinuation or replacement of the London Interbank Offer Rate, which may adversely affect interest rates;
- fluctuations in our results due to seasonality and other factors;
- dependence on skilled employees with creative and technical backgrounds;
- U.S. and international economic and industry conditions, including increases in benchmark interest rates and the effects of inflation;
- public perception of our response to environmental, social and governance issues;
- changes in, or the elimination of, our share repurchase program;
- our ability to use the intellectual property rights of Light & Wonder, Inc. (“Light & Wonder”, “L&W” and “Parent”) and other third parties, including the third-party intellectual property rights licensed to Light & Wonder, under our intellectual property license agreement (“IP License Agreement”) with our Parent;
- protection of our proprietary information and intellectual property, inability to license third-party intellectual property and the intellectual property rights of others;
- security and integrity of our games and systems;
- security breaches, cyber-attacks or other privacy or data security incidents, challenges or disruptions;

- reliance on or failures in information technology and other systems;
- loss of revenue due to unauthorized methods of playing our games;
- the possibility that the conditions to the completion of the Merger (as defined above) may not be satisfied on the anticipated schedule or at all;
- the possibility that the Merger may not be consummated or that Light & Wonder and SciPlay may be unable to achieve expected operational, strategic and financial benefits of the Merger;
- the possibility of any event, change or other circumstances that could give rise to the termination of the Merger Agreement (as defined above);
- the outcome of any legal proceedings that may be instituted following announcement of the Merger;
- failure to retain key management and employees of SciPlay;
- unfavorable reaction to the Merger by customers, competitors, suppliers and employees; and
- unpredictability and severity of catastrophic events, including but not limited to acts of terrorism, war or hostilities or the COVID-19 pandemic, as well as management's response to any of the aforementioned factors;
- the impact of legal and regulatory restrictions on our business, including significant opposition in some jurisdictions to interactive social gaming, including social casino gaming, and how such opposition could lead these jurisdictions to adopt legislation or impose a regulatory framework to govern interactive social gaming or social casino gaming specifically, and how this could result in a prohibition on interactive social gaming or social casino gaming altogether, restrict our ability to advertise our games, or substantially increase our costs to comply with these regulations;
- laws and government regulations, both foreign and domestic, including those relating to our Parent and to data privacy and security, including with respect to the collection, storage, use, transmission, sharing and protection of personal information and other consumer data, and those laws and regulations that affect companies conducting business on the internet, including ours;
- the continuing evolution of the scope of data privacy and security regulations, and our belief that the adoption of increasingly restrictive regulations in this area is likely within the U.S. and other jurisdictions;
- risks related to foreign operations, including the complexity of foreign laws, regulations and markets; the uncertainty of enforcement of remedies in foreign jurisdictions; the effect of currency exchange rate fluctuations; the impact of foreign labor laws and disputes; the ability to attract and retain key personnel in foreign jurisdictions; the economic, tax and regulatory policies of local governments; and compliance with applicable anti-money laundering, anti-bribery and anti-corruption laws;
- influence of certain stockholders, including decisions that may conflict with the interests of other stockholders;

- failure to establish and maintain adequate internal control over financial reporting;
- stock price volatility;
- litigation and other liabilities relating to our business, including litigation and liabilities relating to consumer protection, gambling-related matters, employee matters, alleged service and system malfunctions, alleged intellectual property infringement and claims relating to our contracts, licenses and strategic investments;

- our ability to complete acquisitions and integrate businesses successfully;
- our ability to pursue and execute new business initiatives;
- our expectations of future growth that will place significant demands on our management and operations;
- natural events and health crises that disrupt our operations or those of our providers or suppliers;
- changes in tax laws or tax rulings, or the examination of our tax positions;
- levels of insurance coverage against claims; and
- our dependence on certain key providers.

Additional information regarding risks and uncertainties and other factors that could cause actual results to differ materially from those contemplated in forward-looking statements is included from time to time in our filings with the SEC, including the Company's current reports on Form 8-K, quarterly reports on Form 10-Q and annual reports on Form 10-K, including the latest annual report filed with the SEC on March 1, 2023 ("2022 Form 10-K") (including under the headings "Forward Looking Statements" and "Risk Factors"). Forward-looking statements speak only as of the date they are made and, except for our ongoing obligations under the U.S. federal securities laws, we undertake no and expressly disclaim any obligation to publicly update any forward-looking statements whether as a result of new information, future events or otherwise.

Non-GAAP Financial Measures

Adjusted EBITDA, or AEBITDA, as used herein, is a non-GAAP financial measure that is presented as supplemental disclosure and is reconciled to net income attributable to SciPlay as the most directly comparable GAAP measure as set forth in the above table. We define AEBITDA to include net income attributable to SciPlay before: (1) net income attributable to noncontrolling interest; (2) interest expense; (3) income tax expense; (4) depreciation, amortization and impairments; (5) restructuring and other, which includes charges or expenses attributable to: (a) employee severance; (b) management changes; (c) restructuring and integration; (d) M&A and other, which includes: (i) M&A transaction costs; (ii) purchase accounting adjustments (including contingent acquisition consideration); (iii) unusual items (including legal settlements related to major litigation) and (iv) other non-cash items; and (e) cost-savings initiatives; (6) stock-based compensation; (7) loss or gain on debt financing transactions; and (8) other expense or income including foreign currency (gains) and losses. We also use AEBITDA margin, a non-GAAP measure, which we calculate as AEBITDA as a percentage of revenue.

Our management uses AEBITDA and AEBITDA margin to, among other things: (i) monitor and evaluate the performance of our business operations; (ii) facilitate our management's internal comparisons of our historical operating performance and (iii) analyze and evaluate financial and strategic planning decisions regarding future operating investments and operating budgets. In addition, our management uses AEBITDA and AEBITDA margin to facilitate management's external comparisons of our results to the historical operating performance of other companies that may have different capital structures and debt levels. Our management believes that AEBITDA and AEBITDA margin are useful as they provide investors with information regarding our financial condition and operating performance that is an integral part of our management's reporting and planning processes. In particular, our management believes that AEBITDA is helpful because this non-GAAP financial measure eliminates the effects of restructuring, transaction, integration or other items that management believes have less bearing on our ongoing underlying operating performance. Management believes AEBITDA margin is useful as it provides investors with information regarding the underlying operating performance and margin generated by our business operations.
